[contact@nemesisyachts.com](mailto:contact@nemesisyachts.com)

The 'NEMESIS ONE' is the world's fastest luxury foiling catamaran, able to break the 50 knots speed barrier, while flying on computer controlled hydrofoils. The all carbon fiber Nemesis One boasts

stunning & comfortable interiors that can be fully customized. Powered by a VPLP wing sail, the high-tech superyacht resembles more of a stealth fighter jet, than a conventional sailing yacht.
